

# Northamptonshire Family History Society

## Parish and Place Workshops

### Not Just the Lives of the Landed Gentry...

Friday 1 May 9.45am for 10am  
Northamptonshire Archives, Wootton Hall Park,  
Northampton NN4 8BQ

***If you want to understand something of your ancestors' lives, then seeing them in their local context and finding out about their local town or village is key to finding out more***

One of the best sources to help you do this are the family estate collections that are especially rich for this county. Many of the parishes were part of larger estates and so you can use documents, such as rentals, to help locate your ancestor in a certain place at a certain time. But more than just lists of names, these collections can also offer ways of building a picture of the community and how it shaped people's lives. Sources to be covered in this workshop will include title deeds, surveys and terriers, maps, correspondence and accounts.

A second workshop will take place in September exploring Parish Chest Records and Parish Administration

**Cost per day is £25 per person  
including a sandwich buffet lunch**
